

EMP P/N - 12711

2015-2019 Mid-Size/2-Seat Polaris
Ranger
with Pro-Fit Cage
Hard Coat Full Windshield

Includes:

1. (1) Polycarbonate Windshield (12776)
2. (4) Thumbscrews - Large Diameter
3. (4) Mounting Bracket (11898-02)
4. (1) 3/16" x 144" Edge Trim
5. (1) EMP® Logo Decal

Installation:

1. Starting at the center of the bottom, install the edge trim around the outside of the windshield. The purpose of starting at the bottom is so that if you have a leak at the seam it will not drip on you. The length of the edge trim supplied is a little long so that you can trim it at assembly. You can use a wire cutter to cut the edge trim.
2. Attach the windshield to your cage with the brackets and thumbscrews.
3. Your installation is complete.
